FOREWORD

The Digest of Public General Bills and Selected Resolutions was prepared originally for the Second Session of the Seventy-fourth Congress and has been published for all subsequent Congresses.

The purpose of the Digest is to furnish, in the form of a brief synopsis, the essential features of public bills and resolutions and changes made therein during the legislative process so that Members will have a readily available source from which they may answer inquiries concerning these measures.

In order to furnish Members with frequent coverage the Digest is normally published during each Session in 5 cumulative issues with biweekly supplementation as may be needed. Each cumulative issue is divided into 4 sections. The first section (green pages) contains a listing, by number, of the bills that have been reported by Committees and the current status of each such bill. Synopses in this section (green pages) are revised when necessary to reflect the changes made during the legislative process. The second section (yellow pages) contains a numerical listing of public laws enacted during the current Session together with the bill numbers of such laws. The third section contains the synopses of public bills and resolutions in numerical order as introduced. The fourth section is a subject index. The final issue of the Digest for each Congress contains a fifth section which provides a ready reference, by number, to public bills and resolutions introduced by each Member (Member Index).

Preparation of the Digest is the responsibility of the Bill Digest Section, American Law Division, Legislative Reference Service, Edwin B. Kennerly, Editor.
